DESIGN SHEET

240-822-006
Printed in Japan

These design sheets are provided as drawing samples. Before you draw your own design, use these sheets and find out how the designs are embroidered.

▶ **There are designs which are for one point embroidery or can be combined as follows:**

Example

Altering the design size.

Connecting the designs continuously.

Turning the designs 90 degrees for corner.

▶ **There are designs for single color, multi-color (2-4 colors) and inverted image embroideries.**

Example	Tulip	1 sheet	(Single color, 2 colors & inverted)
Single color	A-T	5 sheets	(20 designs)
2 colors	A-H	4 sheets	(8 designs)
3 colors	A-J	10 sheets	(10 designs)
4 colors	A-J	10 sheets	(10 designs)

The example sheet (Tulip) contents all image modes, so practice the scanning using it as a start. (Please consult with the instruction book how to use.)

▶ **How to use the design sheet**

Set the design sheet on the scanner guide on the main body with the arrow points forward. Then scan it slowly. In case of using multi-color design sheet, set and scan it in order of scanning indicated on the sheet. Select a color indication shown on the sheet after each scanning or another color if you wish to change.

- To get good result, embroider on the felt or plain woven fabrics.
- There are some designs which can attractively be embroidered with setting the satin-stitch width at 2 mm and weaving-stitch width at 3 mm.

After you enjoyed using these design sheets, draw your own design and scan it, or scan the illustrations in the magazines and embroider.
